OBJECTIVE

Enthusiastic MERN Stack developer in building web applications and a strong foundation in front-end and back-end development. Eager to leverage my skills and knowledge to contribute to a dynamic team, create real-world projects, and further enhance my expertise.

PROJECTS

1 - E-Commerce Website using React.js

- Developed a fully functional e-commerce platform with product listings, shopping cart, and checkout functionality.
- Technologies Used: React.js, HTML, CSS.

2 - Matrimonial Website

- Created a responsive matrimonial website from scratch using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and user-friendly design for a seamless experience.

3 - Countdown Timer

- Designed a countdown timer using vanilla JavaScript and CSS, allowing users to set specific countdown intervals.
- Incorporated visual animations and user-friendly controls for an engaging user experience.

4 - To-Do List App

- Developed a dynamic To-Do List application using React.js, enabling users to manage tasks with ease.
- Implemented features like adding, editing, and marking tasks as complete, with real-time updates.
